Excerpt: . . . 11 job-related injuries, and required employers to pay for work days that employees missed due to injuries that may not have been caused by work at all. They also ar-gued that the rule did not adequately inform employers of what steps they must take to achieve compliance with the rule and that it would not have been effective in preventing injuries to workers. OSHA's final ergonomics rule was thought to be so flawed that bipartisan majorities in both houses of Congress voted to eliminate it early last year. At that time, I promised to establish a comprehensive policy to address MSDs. It was critical that any Departmental approach to ergonomics be clear, effective, and capable of surviving legal challenges and Congressional review under the Congressional Review Act. After more than a year of work, including three public forums held around the country, the Department of Labor has unveiled an approach that will provide real protections for Americas workforce. Inevitably, some will criticize the new approach, arguing that relying on enforcement and industry-specific guide-lines instead of a formal rule does not go far enough. Such criticism ignores several realities. For example, when promulgating a rule, OSHA should follow certain principles, such as making a scientifically valid determination regarding the degree of risk from various levels of activity. The lack of precise information about degree of risk, dose-response relationships, or feasible and effective controls, for example, would be a major hurdle to Agency efforts to...
