Butterflies, with their transformation from hungry caterpillar to beautiful flying flower, are among the most fascinating animals for children. Butterflies of the World introduces different types of butterflies and moths through a range of interactive activities and stickers. This activity book will keep children entertained for hours through fun activities, such as sticking on the missing wing of a comet moth or coloring in the wings of a Large Blue butterfly. In the process children learn how caterpillars turn into butterflies, what they eat, how they trick predators, and other interesting facts. A quiz at the end of the book tests their knowledge.
