Jesuit fathers, and lately, if not now, , under the superintendency of Father Boyle, a Dublin Iristiman. is in the walled city. Tt is situated midway of, and close behind, the wall toward the bay. During more than thirty years its contributionto science in meteorological, magnetic, earthquake and astronomical data have justly given it world-wide renown. The visitor finds in it almost no end of barometers, thermometers, rain-gages, windgages and such like weather apparatus, most of it selfregistering, together with;t 20-inch American telescope, whose place of honor is a building by itself: a tower built of solid masonry twenty feet square, wholly disconnected with any other structure, and on the top scores of most delicate instruments arranged for detecting, measuring and recording earlt quake phenomena, down: , low and far distant subterranean mutterings; and win and electric connections it! abundance, to set bells ringing and tickers going at the slightest disturbance. Tin educated natives here employed manipulate most of the apparatus with the ease and precision of colic, professors, and their computations seldom requin correction by the fathers. The observatorys typhoon-signal service is a boor to humanity. Eight different signals are employed, to indicate the various degrees of storm intensity, nearness or danger. They are run up on a high flag taff at the mouth of the Pasig, in plain sight from both the outer and the inner harbors; at night colored lanterns are used. As the haze thickens and the low, white-edged clouds come scudding...
