Brand New Book ***** Print on Demand *****.Excerpt from Theo-Scientium or Introductory Extracts to the Seven Ages of Creation Well, SO much for revealed intelligence. Now for science; scientific information, and let us see how the two harmonize. Although there is nothing in astronomy directly declaring the sun to be. A heaven, yet the idea is at least very deducible from many stated facts. In starting out we must of course admit that, outside of the Scripture, the proposition cannot be proved by any rule of mathematical calculation, nor logic, nor by ocular demonstration; data can be gleaned only by inference from appearance, size, position, relation, motion, importance, etc., of the cosmic body. But even the same is true with respect to all scientific discoveries. And especially in dealing with this hidden question, science at best can give us only circumstantial evidence.
