FRICION STIR SURFACING

LAP Lambert Academic Publishing Mai 2013, 2013. Taschenbuch. Book Condition: Neu. 220x150x5 mm. Neuware - Friction Stir Surfacing(FSS)has been developed for fabrication of surface composite. The process involves rotating a solid consumable bar with one of its ends pressed hard against a substrate material such as a plate. Commercial pure aluminium and medium carbon steel is used as tool and substrate. Heat is generated at the tip of the consumable, producing a plasticized layer. Lateral movement of the substrate, relative...

Reviews

This book is indeed gripping and exciting. it had been writtern really perfectly and useful. Its been written in an remarkably basic way and is particularly only following i finished reading through this ebook through which in fact changed me, affect the way i think.

-- **Royce Heathcote**

Great e book and useful one. Of course, it really is engage in, continue to an amazing and interesting literature. You wont sense monotony at anytime of your time (that's what catalogues are for regarding if you request me).
