

O impacto da paralisia cerebral na vida do familiar cuidador

By Paula Alexandra Carvalho Miranda

Novas Edições Acadêmicas Mrz 2015, 2015. Taschenbuch. Book Condition: Neu. 220x150x4 mm. Neuware - Este estudo pretende analisar: (1) a associação entre bem-estar psicológico, stress parental, qualidade de vida e suporte social percebidos por pais/mães de crianças com Paralisia Cerebral (PC), (2) se as variáveis psicológicas mencionadas diferem em função da gravidade e tipo de PC, e (3) os preditores do bem-estar psicológico e stress parental. Participaram no estudo 68 pais/mães de crianças com PC. A idade das crianças variou entre os 6 e os 12 anos. Administraram-se: Questionário Sociodemográfico e de Saúde, Inventário de Sintomas Psicopatológicos (Canavarro, 1999), Índice de Stress Parental (Abidin & Santos, 2003), Questionário Breve da Qualidade de Vida da Organização Mundial de Saúde (Centro Português para Avaliação da Qualidade de Vida da Organização Mundial de Saúde, 2005), Escala de Suporte Social (Fachado, Martinez, Villalva, & Pereira, 2007) e Sistema de Classificação da Função Motora Global (Palisano et al., 1997). Os resultados enfatizam a importância que as variáveis psicológicas têm na promoção/manutenção do ajustamento psicológico dos pais, sobretudo o suporte social, o qual parece ter um efeito amortecedor do impacto de stress, devendo integrar estudos futuros 72 pp. Portugiesisch.

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Natalie Abbott**

This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be playful, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.

-- **Rene Olson**
