The major difference is that the urveys of Construction shows counts and characteristics of housing units in various stages of construction through completion. The American Housing urvey shows counts and characteristics of the existing housing inventory. Additional differences between the 1984 American Housing urvey and the urveys of Construction may be attributed to factors such as the sampling variability and nonsampling errors of the data from the two surveys, survey procedures and techniques, and processing procedures. Comparability with other Bureau of the Census data. tatistics in this report refer, for the most part, to the housing unit, household or householder. Data on the individual household members may differ from other similar data compiled by the Bureau of the Census. For these types of data, write to Chief, Population Division, Bureau of the Census, Washington, DC 20233. Comparability with housing vacancy surveys. There may be differences between this...
